**COVID-19 Operational Update**  
**Saturday 29 May 2021**

Since 20 April 2021, a total of 1,876 inspections have been conducted covering the Central, Western and Northern Divisions.

141 inspections of the total 1,876 were completed on Wednesday, 26 May 2021 with 46 in the Central Division, 13 in the Western Division and 82 in the Northern Division. The inspections included 67 for Stock & Supply Surveillance, 74 for COVID-19 Safety Measures.

All 74 traders inspected for COVID-19 Safety Measures were found to be practicing safety measures when inspected.

Additionally, FCCC provided assistance to 17 businesses for issues and concerns ranging from commercial rent to COVID19-safety protocols for businesses, to matters between businesses and their financiers, hire purchase repayments and other credit-type accounts.

With regard to domestic supply chains, FCCC continues to provide assistance in normalising sugar supplies and is in regular communication with the Fiji Sugar Corporation and respective traders.

Since the implementation of COVID-19 safety measures by the Fijian Government and the Ministry of Health and Medical Services, teams from the Fijian Competition and Consumer Commission (FCCC) have been on the ground conducting inspections for stock and compliance with COVID-19 safety measures.

To aid our frontline team in preventing the spread of COVID-19, FCCC encourages members of the public to call 158 immediately if they, or anyone they know, is experiencing any of the symptoms of the deadly virus.

Additionally, we urge Fijians to call the Child Helpline, 1325, if they are aware of, or suspect, that a child may be facing domestic violence or abuse at home during these difficult times.

In a bid to ensure the safety of all Fijians, FCCC discourages all unnecessary travel so if anyone has a complaint that they wish to lodge, we urge you to please use the following channels to contact us:
